

Reading Notes 1

Directions:

1. Read through the appropriate sections of chapter 1 in your textbook (1.5, 1.6, 1.7, 1.8, 1.9, 1.10, 1.11 and 1.12).
2. For each section, list at least three environmental features. This could include climate, weather, mountains, deserts, rivers, lakes, vegetation, animal life, etc... This information can be written in bullet format or other short notational style.
3. Color code the title of each section with the section on the map by coloring the section and an area near the title of that section.
